

# Citizens of Camden for Responsible Zoning

**NOW is the time to stand up and make our voices heard.**

If you oppose the spot zoning of Fox Hill proposed by dozens of undisclosed investors, most of whom have not set foot in Maine this year, please plan to speak up at the first Planning Board public hearing next week Wednesday, November 20th at 5:00 p.m. at the Opera House.

Let's be clear: This is not a minor change to our zoning ordinance. The investors and lawyers have added pages and pages of definitions and conditions which will forever alter our community by allowing businesses to build and operate in our most historic residential neighborhoods. Why would we accept this proposal and put our town's beauty and character up for sale to enrich a group of investors?

The Planning Board will soon vote on whether or not to send this proposal to the Select Board. It is critically important that they hear from as many citizens as possible before they vote.

**Please visit our website, join our growing coalition, and get involved.**

**We Respectfully Ask the Planning Board to Vote **NO** to spot zoning Fox Hill**
