Letters, Camden Herald

Rezoning not 'in harmony'

Because of our deep concern and caring for all Camden residents, we are writing to oppose the Fox Hill rezoning proposal. This proposal would not be in harmony with the abutting residential land uses and has the potential for serious unintended consequences to the town of Camden, in general, and all residential areas of Camden in particular. We have witnesses young families grow and thrive in this residential area. Their safety and freedom to use our narrow, winding street (Bay View Street) will be seriously impacted by this proposed zoning change.

Our town planners, committees and law enforcement officials have worked long and hard for many years to ensure the continued safety and integrity of Camden's residential zoning plan.

In the long run, it matters to all of us.

Sincerely,

Julie and Charlie Cawley

Camden
