

September 16, 2013

Dear Mr. Wilson:

As a Chestnut Street resident who lives very near the Fox Hill property, I am concerned that changing the current zoning laws to allow the McLean facility to operate here would have a negative impact on our neighborhood. I also fear that such an amendment would set a precedent and permit "spot-zoning" to occur all throughout the town of Camden. Please note my opposition to the request for an amendment to the zoning ordinances presently in place, and please share my statements with Mr. Lowrie Sargent and the others who serve on the Planning Board.

Thank you for your help and for your attention to this matter.

Sincerely,
Daniel Smereck
