

August 23, 2013

Dear Sir;

Maine is a big state. Surely the drug rehab institution seeking approval by breaking down the residential zoning on Bay View Street could achieve its goals elsewhere in a less hostile and more suitable location. The group that is proposing this is taking advantage of a distressed real estate sale and not heeding the general desires as well as zoning ordinances of this peaceful residential neighborhood in Camden.

We are opposed to this preposterous and aggressive proposal.

This letter may be shared with the Planning Board.

Thank you for your attention,

Sincerely,

Dr. and Mrs. Russell F. Warren
64 Chestnut Street Camden, Maine
