

August 28, 2013

Mr. Wilson,

I hope you will share my thoughts with the Planning Board before tomorrow's meeting which I am unable to attend. I am not in favor of spot zoning in any instance as it is contrary to Camden's Comprehensive Plan and opens the door to future zoning changes. It will be hard to limit other spot zoning proposals once we have agreed to one. This is a residential neighborhood with lots of foot traffic on the narrow roads. I walk there regularly and am often moving off the pavement to allow traffic to pass. More traffic will make this more dangerous and spoil the peaceful beauty of the area. We need to protect our residential areas and leave commercial ventures in districts that are zoned for them.

Thank you,

Lucille Williams
